ADVANTAGE SERIES

- ✓ Large working width: 7.20 m
- ✓ Frame made of 3 sections (2.40 m + 2.40 m + 2.40 m) with hydraulic folding system
- ✓ Structure and tools fully made of galvanised special steel. Shot-blasted and then painted (2K) blades in treated steel
- ✓ 7 rows of tools for an intensive and precise work:
 - 1 row of 100 cm scrapers on spring tines
 - 1 row of 60 cm leveling scrapers on half-flexible leaves
 - 5 rows of spring tines (Ø 8 mm)
- ✓ Independent adjustment of the work intensity of every type of tool:
 - with the gauge wheels (scrapers)
 - with a lever on the rows of spring tines so as to have the same angle on all elements
- ✓ Flexible hitch to follow the ground relief perfectly and limit vibrations
- ✓ Automatic locking in transport position (mechanical unlocking by means of a cord from the cabin)
- ✓ 2 pairs of rubber wheels (Ø 375 x 150 mm)
- ✓ DELIMBE 300 l air seeder: turbine with electric drive (12 outlets), control box and "high-flow" distributor (recommended for grass, grains and vetches)
- ✓ Compatible with 80-hp tractors or more
