MODULO2 XXL

WPM20001V-01

ADVANTAGE SERIES

Given the success of the MODULO Advantage, which won the Machine of the Year 2019 Award, the Advantage range is extended with the arrival of a XXL version of this product. With a 20,000 l-capacity, wheels with a large diameter and a wide array of high-tech options and pieces of pre-equipment, this new MODULO2 version will make its many users happy given its high manoeuvrability, ease of use and its very attractive price!

- ✓ MODULO2 20,000 l slurry tanker
- ✓ Monocoque structure made of special steel, galvanized inside and outside
- ✓ Movable bolted Roll-Over bogie running gear
- ✓ ADR 150 axles with 420 x 180 mm brakes
- ✓ Free steering axle with hydraulic locking (DA) and shock absorbers
- ✓ Wheels 650/65R26.5 Agriterra 02 (Mitas) 174 D (Ø 1,510 x 680 mm, 9,110 kg per wheel at 40 km/h and 4 bar)
- ✓ Hose carrying mudguards
- ✓ Air brakes in proportion to the load
- ✓ Sprung drawbar (parabolic cross leaves) for maximum comfort and driving stability
- ✓ JUROP PNE 155 pump (15,200 l/min at atmospheric pressure - 13,217 l/min at 60% vacuum) - 1,000 rpm - direct connection to the tractor - including: automatic lubrication, Ø 100 mm hoses and JOSKIN Ø 150 mm pressure relief valve
- ✓ ECOPUMP: special large volume exhaust pipe with oil collector, high air intake and noise level reduction
- ✓ Self-cleaning syphon (60 l/min)
- ✓ Pre-equipment for hydraulic mixer
- ✓ Pre-equipment for 500 x 600 mm hydraulic access - including pre-equipment for inner and outer ladders

ADVANTAGE SERIES

With the "Advantage" concept, JOSKIN wanted to prove that it was possible to reduce the price of agricultural machines without having an impact on quality. To get rid of this budget constraint, JOSKIN bet everything on a "mass" production that was until then not used in the agricultural trailer sector. The concerned models are indeed assembled on dedicated assembly lines so as to produce identical series of machines. Producing a large quantity of a model implies more advantageous prices for the raw materials, a more profitable distribution of the workforce and a higher efficiency of the automated industrial machines. The resulting savings have then a direct impact on the sale price and allow to deliver a high-tech product at the price of a standard one.
