## ADVANTAGE SERIES

### MODULO2

WPM11013V-01

ADVANTAGE SERIES

- ✓ MODULO2 11,000-l slurry tanker
- ✓ Monocoque structure made of special steel, galvanized inside and outside
- ✓ ADR 150 axle with 420 x 180 mm brakes
- ✓ Wheels 800/60R32 Flotation Trac (Vredestein) 185 D (Ø 1,800 x 800 mm, 12,600 kg per wheel at 40 km/h and 4 bar)
- ✓ Air brakes in proportion to the load
- ✓ Sprung drawbar (cross leaves) for maximum comfort and driving stability
- ✓ 2 LED working lights at the back (with control box in the cabin), end outline marker lamps (4 pieces) and LED side marker lights
- ✓ JUROP PN 106 pump (11,000 l/min at atmospheric pressure - 10,000 l/min at 60% vacuum) - 1,000 rpm - speed-increasing gearbox
- ✓ Self-cleaning syphon (30 l)
- ✓ ECOPUMP: special large volume exhaust pipe with oil collector, high air intake and noise level reduction
- ✓ Ø 6" (150 mm) communicating gauge (transparent perspex tube)
- ✓ Pre-equipment for Ø 200 mm not built-in front-JUMBO filling arm and turbo-filler (available as an option)
- ✓ Pre-equipment for Solodisc

**ADVANTAGE** SERIES

With the "Advantage" concept, JOSKIN wanted to prove that it was possible to reduce the price of agricultural machines without having an impact on quality. To get rid of this budget constraint, JOSKIN bet everything on a "mass" production that was until then not used in the agricultural trailer sector. The concerned models are indeed assembled on dedicated assembly lines so as to produce identical series of machines. Producing a large quantity of a model implies more advantageous prices for the raw materials, a more profitable distribution of the workforce and a higher efficiency of the automated industrial machines. The resulting savings have then a direct impact on the sale price and allow to deliver a high-tech product at the price of a standard one.
